Erasmus European Conference
Green Mobility + Green Schools

Potsdam, Germany
4-6 May 2022

Despoina Mavridou & Partners
Greece
The t(h)ree Musketeers

A collaborative eTwinning project with 20 partners and 16 schools from:

France, Greece, Lithuania, Poland, Slovenia
Notifications about preschoolers

- They cannot write or read
- They do not have digital skills
- They can not think abstractly

Teaching methods

- They learn through observation
- They learn using senses
- They want to have fun and play a lot
- They learn through experience
- We are creating problem solving situations
- They work in groups or autonomously
The project’s goals & results

Some of the goals

The pupils are expected to:

• to know the morphology and the species of the trees in local, national and european level.
• to learn the value of trees for the natural and human world.
• to know the fauna (animals) related to the existence of a tree on, around, under and inside a tree.
• to learn how to measure the age, the height and the diameter of a tree in an innovative way.
• to embed coding and robotics.
• to express in different and creative ways (music, drawing, carfts, tales/stories).
• to express and share views on the topic with other pupils.
• to meet and make on line friends using a foreign language.
• to develop digital skills, skills of collaboration and critical thinking
• to come in contact with scientists like a forester or an agronomist.
• to have fun!!

Expected results

The desirable results would be:

• Students’ activation and the local community about creating volunteering groups which will protect and guard the forests of the region.
• Blog creation with the news and the results of the actions of the volunteers.
• Creation of informative leaflets or letters addressing to the officials and the community giving instructions for ways of protecting the flora and fauna of the trees-forests.
• On line meeting informing about the project’s results.
• Creation of an e-book- tale
• Planting trees by the project’s partners
• Visits to the forest all year round.
Some important rules for great collaboration
