Erasmus+ Project: 3 countries, one region, a common goal: creating a more sustainable future

BETTINA BEINING 11. APRIL 2022, 18:15 Uhr

Introduction

Three countries, one region, one goal

Übersichtskarte
Großregion SaarLorLux

Three countries, three schools:

France: Collège Guynemer/Nancy

Luxembourg: International School Michel Lucius

Germany: Stefan-Andres Gymnasium Schweich/near Trier

Setting up the project

1. Planning of workshop series in each country

- France: How to become a green school?
- Germany
- Luxembourg: Ecological Footprint; Earth overshoot day; Earth day; Challenges: Zero waste, Zero Plastic...
Practical example workshop series Germany

- the project itself:

SDGs

SDG 12: Responsible consumption and production

Fast Fashion versus Slow Fashion

Upcycling workshop

- the basic framework conditions:
Lodging
Catering
Public transportations

Challenges and main obstacles

Schedule management

Local Resource and time conflicts

Lack of communication

Unforeseen conditions: Corona

--> Change of the planning!

Inspired by eTwinning kits
Kit
Climate Action is the 13th goal of the 17 Sustainable Development Goals (SDGs). The Goals are set by the United Nations as part of the Development 2030 Agenda for Sustainable Development. Launched in 2015 they have been adopted by 193 countries.

ETWINNING

The World’s Largest Lesson
We promote use of the Sustainable Development Goals in learning so that children can contribute to a better future for all. From citizenship and justice to climate change and the environment, inspire children to make a difference!

THE WORLD'S LARGEST LESSON

E-twinning project

Twinspace
Les apprenants travaillent sur le thème du changement climatique ainsi que de l'utilisation des ressources. Ils vont collaborer avec leurs pairs des deux autres écoles et utiliser les langues étrangères tout au long du projet. Le but est de sensibiliser les jeunes au changement climatique ainsi que sur l’impact que chacun a / peut avoir.

FTWINNING

Expected results
At the end of the different activities, learners should
- understand that climate change is an issue that affects us all

- understand that our actions have positive or negative impacts on the environment
- be able to name several concrete and simple actions with a positive impact on the environment
- implement these actions
- promote awareness and action on climate change in their immediate environment
- be able to work together in multilingual teams
- be more comfortable using foreign languages

„CHANGE YOUR BEHAVIOUR, NOT THE CLIMATE“

Interim results
